

**Racism is not the problem.
Charity is not the answer.**

**Solidarity with African
Liberation is the solution!**

African people in the U.S. and around the world don't want charity. They are clear it's not the "racist" ideas in white people's heads that devastate their communities, but an economic and political system built at African people's expense.

The Uhuru Movement is calling on us to work in solidarity with African led programs to transform their conditions. Your donation supports these projects in Africa and the U.S.:

- Sustainable electrification
- Water purification
- African people's media
- Economic development
- Stopping police/military violence

**Victory to African People!
Reparations are due!**

AFRICAN PEOPLE'S SOLIDARITY DAY

A FUNDRAISER FOR THE UHURU MOVEMENT

A true stand in solidarity with the movement of African working people for liberation, justice and unity

Africans are one people worldwide, forcibly dispersed by a system built and maintained on slavery, colonialism and genocide.

There is a direct relationship between the affluence and power of white people and the poverty and oppression of African people.

UHURU MEANS FREEDOM

The Uhuru Movement of African workers and poor peasants is leading an international struggle to liberate Africa and reclaim its vast natural resources for the benefit of African people everywhere.
