World peace and unity calls for
**WHITE SOLIDARITY
WITH LIBERATION FOR
AFRICAN AND OPPRESSED
PEOPLES.**

Keynote speaker:
OMALI YESHITELA,
Leader of the Uhuru
Movement,
Chairman of the
African People's
Socialist Party

*U.S. power is based on its grip
on the peoples of the world.
The wealth of the white world
was built on resources stolen
from other peoples.*

*This is particularly true in
Africa, the richest continent
on earth, even as African
people are the poorest.*

DONATE!

AFRICAN PEOPLE'S SOLIDARITY DAY

Contribute to Uhuru Movement programs led by African working people, transforming conditions for Africa and African people everywhere

Return the diamonds to Africa campaign

Sierra Leone, Liberia and Congo are among the countries of Africa where people live on 30 cents a day while African diamonds are systematically extracted and sold in Western countries for billions of dollars. All diamonds are blood diamonds! Return your diamonds to Africa to fund the African People's Development and Empowerment Project.

One Africa! One Nation!

With the understanding that Africans are one people wherever they have been displaced around the world, the Uhuru Movement is building the African Socialist International (ASI). Its vision is of one united Africa without the divisions set up by colonial powers, with the commitment that Africa's resources belong to African working people. The ASI has members throughout Africa, the Americas and Europe.

Burning Spear Media & Uhuru institutions

Burning Spear Media features Uhuru News, Radio and TV (UhuruNews.com) broadcast worldwide on the internet. The shows cover issues affecting African people on the continent, the U.S. and elsewhere. Burning Spear Media also produces *The Burning Spear* newspaper, as well as films (Burning Spear Productions) and music (Burning Spear Records). Other Uhuru Movement institutions include Uhuru Furniture stores, the TyRon Lewis community gym, and Uhuru basketball teams.

African People's Development and Empowerment Project

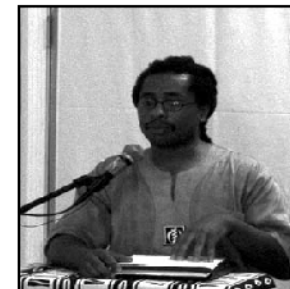

Colonialism has left Africa, and Africans throughout the world, without the infrastructure that we take for granted. The African People's Development and Empowerment Project is an independent African-led initiative working with African communities in Africa and elsewhere. The project is building people's power through renewable energy projects, water purification and prosthetics programs.

Defending the democratic rights of African people in the U.S.

African communities in the U.S. continue to face poverty, powerlessness, police brutality and mass imprisonment. For 30 years, the Uhuru Movement has been on the front lines to stop the war against African people with campaigns for economic development in impoverished African communities, withdrawal of police containment policies and community control of schools and housing.

African Internationalist Student Organization (AISO)

AISO is the student wing of the African People's Socialist Party and the Uhuru Movement, building on college campuses around the country. As in the 1960s when the Student Nonviolent Coordinating Committee (SNCC) and other students played a dynamic role in the Black Power Movement, AISO reflects the growing motion of young African people in the U.S. and around the world working for real transformation for African people.
