Take the Pledge of Solidarity with African People 2010
Stop the War on the African Community in the U.S.!

I am opposed to the brutal war carried out against African people in the U.S. in the form of police violence, massive imprisonment, the foreclosures, ongoing poverty and unemployment.

I stand in solidarity with the worldwide struggle of African people to challenge this war and build free and independent self-determination programs.

I am making a pledge to support these grassroots programs.
